

# ASC *Factory Cat* GTX

asc

With two specialized cleaning systems to choose from, Factory Cat offers the performance and capacity required to clean your unique application.

**THE SMALL RIDER SCRUBBER** ASC Factory Cat GTX comes in two deck styles. Disc type for all types of scrubbing and cylindrical for scrubbing and sweeping operations. The deck sizes come in 26, 30 and 34 inch in disk and 24, 27, 30 and 34 inch cylindrical.

**THESE TOUGH**, compact scrubbers offer the productivity of riders with better manoeuvrability than walk-behinds. With two specialized cleaning systems to choose from, FACTORY CATS offer the performance and capacity required to clean your unique application.

**THE "DISK" MACHINES** offer gimballed brush drive and 50% more scrubbing power than competitive brands. The cylindrical scrub and sweep in a single pass. The small rider scrubber ASC Factory Cat GTX deck has curtains and wipers, for unmatched water control. The side shrouds are made of thick steel and remove easily for brush access and adjustments.

**OUR CENTRAL COMMAND II** system includes a LCD readout, on-board diagnostics, and three hour meters, simplifying preventive maintenance intervals. If the batteries become too discharged, the FACTORY CATS automatically shut down all systems except "transport", to allow the machine to return to the charge station.
