ASC EUREKA M3

PROFESSIONAL RIDE-ON SWEEPER

A COMBINATION OF TECHNOLOGY AND PERFORMANCE

The wide cleaning path of the ASC EUREKA M3 (1.200 mm with two side brushes) combined with the impressive forward speed of the machine, guarantees an hourly productivity rate of up to 10.140 m²/h.

The compact design and reduced turning radius (1.000 mm), make this sweeper particularly suitable for sweeping in congested spaces which are not accessible to machines with larger dimensions.

The large surface area of the filter (4 m² of material) means that the ASC EUREKA M3 is ideal for sweeping in high dust environments.

THE USER CAN QUICKLY CLEAN LARGE AREAS, WORKING IN TOTAL COMFORT, WHILE KEEPING RUNNING COSTS LOW.

Complete visibility from the driver's seat and ease of access to the machine from both sides, allows the ASC EUREKA M3 to be safely used even in tight and congested spaces.

This sweeper is built to last, with all the materials and components selected to deliver durability. In addition, the solid metal frame which is epoxy coated for enhanced resistance.

✓ VERSIONS

PETROL ENGINE This version delivers more power and manageability, with hydraulic traction on the front wheel the M3 can operate on steep slopes. The reliable and powerful 6,5 hp Honda engine offers greater performance and benefits from a global assistance network.

BATTERY: High performance electric motors power traction and cleaning, guaranteeing low noise emissions and zero pollution. The ASC EUREKA M3 can therefore work in any manufacturing application. Optimized energy consumption provides longer up time.

ERGONOMIC CONTROLS

All the machines functions including the traction and control of the brushes and suction, are managed via simple and intuitive controls which are easy to access.

LIFTING FRONT FLAP

The flap fitted to the front of the machine is activated from the driver's position and allows the main brush to pick.

AUXILIARY ONBOARD VACUUM CLEANERS

The ASC EUREKA M3 sweeper (EB version only) is also available with a vacuum cleaner kit. Designed for cleaning under tables, chairs, and other recesses or to reach shelving and raised surfaces.

DEBRIS CONTAINER

85 litres of hopper capacity is one of the key strengths of the Rider 1201, allowing the sweeper to work longer before having to stop and empty. The optional lift-out baskets facilitate easy emptying.

CENTRIFUGAL CLUTCH

For the ASC Eureka M3 SH a centrifugal clutch assists engine startup, making it faster and easier, while protecting the starter motor.

FLOATING MAIN BRUSH

The MultiBristle® main brush, with rows of mixed diameter bristles in a chevron pattern, is floating and self-levelling. The brush can be changed rapidly without the need for tools.

MULTIPOCKET FILTER®

With an innovative structure, large filtering area and up to 99.9% filtration efficiency, the Multipocket Filter® delivers clean air back into the environment and guarantees filter performance that lasts over time. The filter is also washable, resistant to water and oil, self-cleaning and easy to maintain.
