

ASC EUREKA E85

Battery-Powered
Professional Ride On
Scrubber-Dryer

The ASC E85 ECO, is a rugged "ride-on" scrubber-dryer ideal for the professional cleaning of areas up to 8.000 m². It has a cleaning path of 850 mm, and it is equipped with a twin brush scrub deck which, combined to a 7,5 km/h speed, boasts an area coverage of 6.375 sq/m/h. Designed around Eureka's ECO technology, this model is equipped with the exclusive ECO system, which allows enormous labor/water/detergent savings, and keeps you going up to 5 times longer on that one tank of water.

THE **EUREKA E85** IS AN INNOVATIVE RIDE-ON SCRUBBER-DRYER EXTREMELY ROBUST AND ENGINEERED TO GUARANTEE EXCEPTIONAL PERFORMANCES EVEN ON THE TOUGHEST INDUSTRIAL FLOOR.

ASC Eureka E85 Features & Equipment:

ASC E85 is available equipped with the following type of batteries:
 4 x 6V Gel batteries 4 x 6V Standard batteries 1 x 24V Heavy duty battery

Furthermore, the machine is supplied with a comfortable, easy to use on-board battery charger.

The frame is rugged, made of durable, thick steel, sanded, coated with zinc-phosphate and treated with a thermo hardening powder, and rotationally-molded, polyethylene tanks. Advantage: Better durability (3 times longer than a chassis treated with a standard method).

The ASC E85 features the possibility to adjust the brush pressure either at 46kg or at 67kg. For this reason, the machine can work on smooth floors (i.e. where no abrasive action is required) as well as on rough surfaces.

A very important feature, the scrub deck is equipped with a self-adjusting splash-skirt which, besides preventing the dirt water to splash during the cleaning session, allows for water-leaking prevention. Being in constant contact with the floor, the splash-skirt is one of those components which are most subject to wear. Eureka's skirt is self-levelling, to allow for excellent adherence to all floor types - whereas most of our competitors use a fixed rubber band, subject to water leaks when worn. Designed around ASC Eureka's ECO technology, this model is supplied with the exclusive ECO system as standard.

The NEW ECO LINE of scrubber-dryers

Is made up of 9 models, available in 18 versions, and is ideal for the thorough cleaning and maintenance of small, medium and large size areas.

The scrubbers are available either push-type or ride-on, and upon request can be equipped with the new, exclusive ECO system (patented), which breaks water economy and detergent saving barriers, and has won several awards (among them, the Veneto Sviluppo award issued by the University of Padua).

The system has been designed to guarantee impressive labour/water/detergent savings, and boasts a productivity rate 3 times greater than traditional systems.

FIELDS OF APPLICATION

Industrial sites, communities and vicinities, schools, offices, religious buildings, hospitals, public buildings, airports, ports, shopping malls, logistical depots, cleaning companies and multi services.

SUITABLE CLEANING SURFACES

Ceramics, marble, cement/concrete, linoleum, non-slip surfaces, porcelain tiling and many other dirty conditions.
