

# ASC EUREKA E83

USER-FRIENDLY  
RIDE-ON SCRUBBER  
DRYER

It is available with 2 PPL disks or pads of 65cm and 75cm which, combined to a speed of 6 km/h, boasts an area coverage of 4.500 sq/m/h.

Our major aim was to design a compact machine, fast and productive, that can be purchased at a very competitive price. E83 is therefore a modern alternative to bulky walk-behind or outdated/out-sized ride-on scrubber-dryers.

E83 offers the economic advantage to be used up to four non-stop working hours thanks to the optimization of energy consumption. The compact size allows the machine to pass even through traditional doors or be transported in lifts.

E83 guarantees a dramatic reduction in the cost of cleaning, thanks to an extremely competitive purchase price and a complete set of standard equipment which reduces waste and consumption. No more time and costs wasted on operator training, thanks to the very simple and user-friendly controls.

DESIGNED BY EUREKA FOR THE MAINTENANCE CLEANING OF AREAS UP TO 8000 M2,  
WHICH ALLOWS A DRAMATIC REDUCTION IN THE COST OF CLEANING.

## ASC Eureka E83 Features & Equipment:

E83 is a new, user-friendly ride-on scrubber-dryer designed by Eureka for the maintenance cleaning of areas up to 8000 M2, which allows a dramatic reduction in the cost of cleaning.

- › The recovery tank is equipped as standard with a stainless steel basket to avoid larger debris entering and potentially clogging the system.
- › The E65, E75 and E83 ride-on scrubber-dryers are ideal for noise sensitive environments, equipped with a powerful vacuum motor that is silenced and operates at a low noise level.
- › The E65, E75, E83 are equipped with high capacity tanks for increased productivity, the solution tank is 110 L, while the recovery tank is 125 L.
- › Energy optimization technology boosts operation time to an impressive four, non-stop working hours.
- › The squeegee uncouples on impact, preventing damage to the machine or the environment.
- › The floating skirt adjusts to the surface, preventing unwanted splashing and solution-leaking whilst cleaning.
- › The E65, E75 and E83 are equipped with intuitive, user-friendly controls, for simple operation without needing training.
- › The drive motor is completely sealed and protected by a reinforced bumper. The machine is also equipped with an anti-tilt device for increased safety.

Drive	electronic assisted
Forward speed	6 km / h
Power	24V
Standard battery	4 x 6V
Battery charger	on-board
Weight (inclusive of battery & charger)	357 kg
Size (without squeegee)	1425 x 890 x 1243mm
Squeegee width	1.040 mm

### The NEW ECO LINE of scrubber-dryers

Is made up of 9 models, available in 18 versions, and is ideal for the thorough cleaning and maintenance of small, medium and large size areas.

The scrubbers are available either push-type or ride-on, and upon request can be quipped with the new, exclusive ECO system (patented), which breaks water economy and detergent saving barriers, and has won several awards (among them, the Veneto Sviluppo award issued by the University of Padua).

The system has been designed to guarantee impressive labour/water/detergent savings, and boasts a productivity rate 3 times greater than traditional systems.

### FIELDS OF APPLICATION

Industrial sites, communities and vicinities, schools, offices, religious buildings, hospitals, public buildings, airports, ports, shopping malls, logistical depots, cleaning companies and multi services.

### SUITABLE CLEANING SURFACES

Ceramics, marble, cement/concrete, linoleum, non-slip surfaces, porcelain tiling and many other dirty conditions.
