

THE WORLD'S ONLY MANUAL SWEEPER WITH VACCUUM

Manual Push Vacuum Sweeper

Introducing the world's only manual push sweeper with vacuum, available in Australia. This compact manual sweeper requires no batteries or power, but sweeps ten times faster than a hand broom and simultaneously performs sweep and vacuum functions.

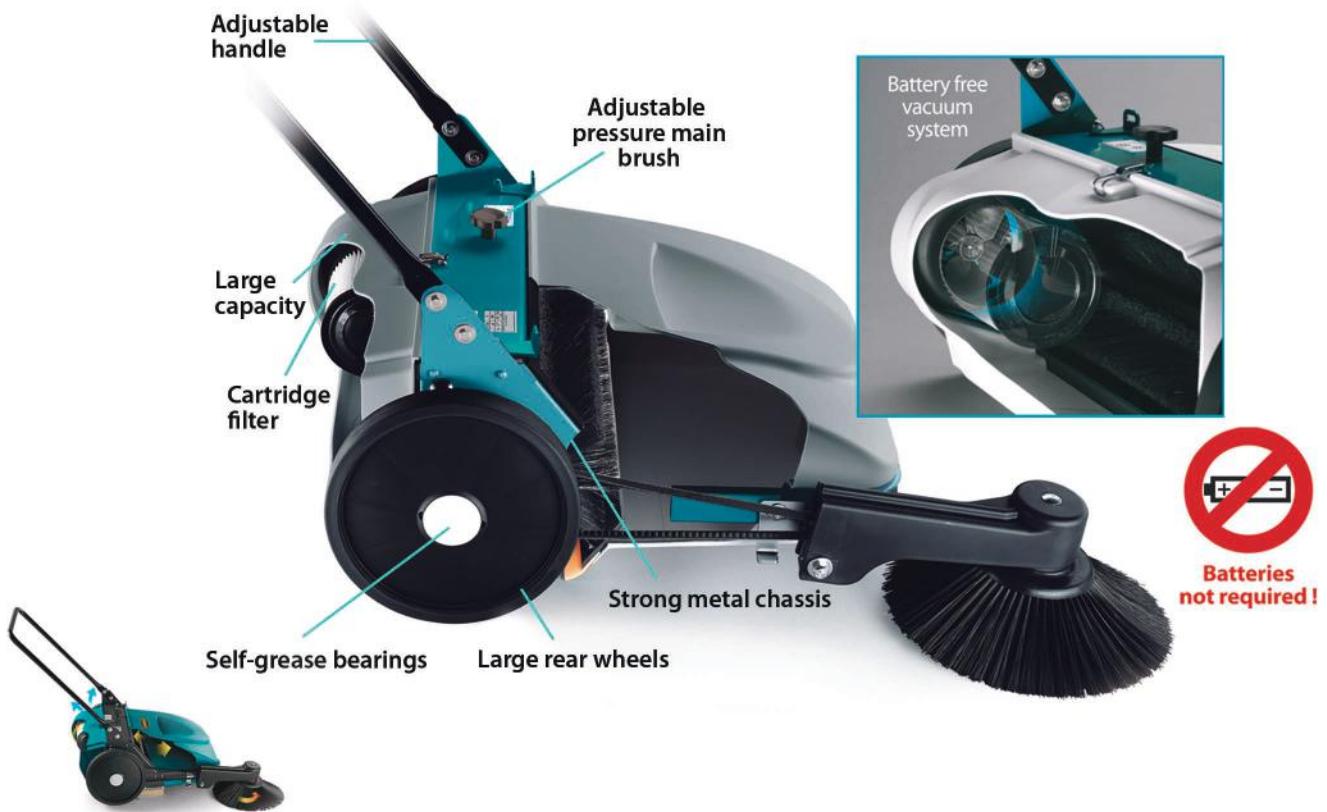

Commercial Floor Cleaning Solutions

ASC is Australia's leading industrial and commercial floor cleaning equipment company. With over 20 years of cleaning experience, ASC leads the way in offering a comprehensive range of professional floor sweepers and scrubbers to suit all industries in Australia and New Zealand.

Industrial Vacuum Sweeper Specifications

This compact manual vacuum sweeper has been designed for commercial and industrial applications, sweeping ten times faster than a broom. No power or batteries are required, so these sweepers go where you go and can clean a variety of floor types.

Innovative Manual Vacuum Sweeper

- > The world's first and only manual push sweeper invented to have its own dust control!
- > No power or batteries are required on these push sweepers. The ASC Mep is suitable for use on a wide variety of different surfaces.
- > Sweeps more than 10 times faster than a conventional broom!
- > Unlimited running time, easy to use, completely silent and 100% eco-friendly.
- > Hand built in Italy, using the highest grade materials including a steel chassis.
- > Very low running costs - forget ongoing service costs.
- > Very long service life - designed to last for years.
- > Can be used on hard and soft surfaces, both indoors and out.
- > Simultaneously performs sweep and vacuum functions.
- > Operates with 2 hoppers (front and back) - so performs even when pulled backwards.
- > Winner of the 2005 European Innovation Award.
- > Do not settle for cheap imitations, the original and the best, sold worldwide with full satisfaction guarantee and warranty.

About ASC

ASC specialise in supplying industrial and commercial floor cleaning equipment to organisations in Australia and New Zealand. We have been in business for over 20 years and not only sell push sweepers but also other industrial and commercial scrubbers and sweepers.

Floor Cleaning Equipment Locations

We have branch offices located throughout Australia. Our floor cleaning equipment is backed by our exclusive warranty guarantees and servicing / spare parts are always available. We also offer on-site servicing and repair.

TOTAL SOLUTIONS FOR ALL AUSTRALIAN INDUSTRIES

Client Testimonials

The guys unpacked it and looked very skeptical, they questioned "How is this thing going to clean the floor properly?, it doesn't have a motor!" You will be please to know after using it once they came back for more and the floors have never been cleaner they all want a go, we even had one guy follow a forklift (just after it left the shed) picking up the loose dirt as it went through his area. So you had been correct the only problem most people have is they want to buy more, So when we are in the market next I do not even have to look I will be buying another.

Stephen Dance Pro-Pac Packaging

We firstly purchased 1 x MEP sweeper unit from ASC after trailing it in our manufacturing environment in NSW. This is a very dusty environment with fine wheat particles produced from our manufacturing process. The guys tried the unit and reported back the MEP unit did a great job in capturing all the fine dust particles and left the floor very clean. We were so impressed we actually then ordered 1 more MEP unit for both VIC plant and the one in WA. I would recommend ASC, there products, services and support.
