

ASC DULEVO 3000

Innovative, robust
structure. Fully
hydrostatic driven

Design, innovative and robust constructions, effective solutions for all applications and the unique large waste hopper make the Dulevo 3000 the perfect working tool for all seasons – everywhere and at any time - regardless of high or low temperatures, sun, rain or snow. Upto date technology and top-quality components ensure the high quality demands of the market – a guaranty of longevity.

THE BASIC CONCEPT OF THE **DULEVO 3000** SWEEPER IS TO DELIVER THE LOW POSSIBLE NOISE EMISSION, COMPLIANCE TO PM10 DUST CONTROL & THE LOWEST FUEL AND WATER CONSUMPTION WHILE IN USE.

Characteristics and advantages of the Dulevo 3000 road sweeper:

- › **Operator comfort and ergonomics:** The spacious interior cabin space and the quality of seats make this machine a highly comfortable workplace
- › **Operator safety:** An insulation system and additional springs protect the operator from sound emissions and vibrations. Large cabin glass surface ensures a full view of the work area.
- › **Environmentally friendly:** Proven to eliminate 100% of the dust particles to PM10 Regulations while sweeping. Far more effective in sweeping & dust control compared to conventional street sweepers. Reduces water consumption by 60% - 80% compared to conventional sweepers. The engine meets the most recent European Emission Regulations.
- › In collaboration with Gore®, Dulevo has developed a **sweeper with total fine particle filtering**, unique in the world. The mechanical filtering and suction system guarantees the total elimination of PM10 particles, thanks to the exclusive application of Gore® technology.
- › **Accessible and easy to repair:** Entirely hydrostatic control does not require the use of electronic components
- › **Manoeuvrability:** the small size of the Dulevo 3000 simplifies even the most complex manoeuvres.

ASC DULEVO 3000 MAJOR SPECIFICATIONS
