Characteristics and advantages of the Dulevo 6000 road sweeper:

- › **Operator comfort and ergonomics:** Ample interior cabin space and the quality of seats make this machine a highly comfortable workplace
- › **Operator safety:** An insulation system and additional springs protect the operator from sound emissions and vibrations. The ample cabin glass surface ensures a full view of the work area.
- › **Environmentally friendly:** Proven to eliminate 100% of the dust particles to PM10 Regulations while sweeping. Far more effective in sweeping & dust control compared to conventional street sweepers. Reduces water consumption by 60% - 80% compared to conventional sweepers. The engine meets the most recent European Emission Regulations.
- › In collaboration with Gore®, Dulevo has developed a sweeper with **total fine particle filtering**, unique in the world. The mechanical filtering and suction system guarantees the total elimination of PM10 particles, thanks to the exclusive application of Gore® technology.
- › **Accessible and easy to repair:** Entirely hydrostatic control does not require the use of electronic components.
- › **Manoeuvrability:** Four-wheel, synchronised and hydraulic steering remarkably simplifies even the most complex manoeuvres.
