

## ASC EUREKA E110

The strongest and  
most versatile  
Ride-On Scrubber  
-Dryer  
Guaranteed!

The Eureka 110 is a compact size scrubber and provides unmatched performance in both commercial and industrial sites.

The E110 has been designed to ensure operator comfort and ease of use. The controls are simple and intuitive, and its great manoeuvrability, combined to excellent visibility, makes it extremely safe and easy to use even by unskilled operators.

Its extremely low noise level makes the E110 the ideal machine for cleaning at any time in any type of building.

The Eureka E110 scrubber can be equipped with the exclusive Ecosystem, a recycling system that saves up to 80% more water than conventional scrubbers ensuring lower running costs, reduced chemical consumption, higher productive used labor and smaller environmental blue print.

THE **EUREKA E110** IS AN INNOVATIVE RIDE-ON SCRUBBER-DRYER,  
EXTREMELY ROBUST AND ENGINEERED TO GUARANTEE EXCEPTIONAL  
PERFORMANCES EVEN ON THE TOUGHEST INDUSTRIAL FLOOR.

## ASC Eureka E110 Features & Equipment:

The Eureka E110 is an innovative Ride-On Scrubber-Dryer, extremely robust and engineered to guarantee exceptional performance even on the toughest industrial floor.

- > **THE RECOVERY TANK** - The tank has a capacity of 220 litres, expandable up to an impressive 660 litres with the activation of the ECO system.
- IMPRESSIVE SUCTION POWER** - Equipped with a powerful three-stage vacuum motor, and with the option of using a second motor that delivers excellent suction on all surfaces.
- EASY LOADING SOLUTION TANK** - A convenient access to the solution tank allows for easy filling, as well as for its complete inspection and maintenance.
- > **FLEXIBLE DRAIN HOSE END** - To adjust the flow of water when emptying the recovery tank.
- > **RECOVERY TANK CAN BE EASILY CLEANED AND MAINTAINED.** E110 is equipped with a large porthole which easily facilitates the cleaning of the recovery tank, including the discharge of sludge.
- > **STAINLESS STEEL DEBRIS COLLECTION BASKET** - It retains all bulky waste collected during the drying phase, allowing for a diversified and ecological disposal.
- > **TOOL-FREE ADJUSTABLE SQUEEGEE** - It can be easily adapted to any type of floor to guarantee optimum water pick-up.
- REVERSIBLE BLADES** - The reversible squeegee blades coupled with the "quick-change" system reduce maintenance costs and downtime.
- > **SELF-LEVELLING SPLASHGUARD WITH PRE-WASH SETTING** - The skirt automatically adapts to the floor surface to avoid leakage of solution and ensuring optimum water pick-up.
- > **AUTOMATIC DETERGENT DOSING SYSTEM WITH CIRCUIT CLEANING DEVICE** - It allows you to choose the amount of detergent, which is taken directly from the original container allocated in a special compartment.
- > **THE DRIVE MOTOR IS PROTECTED AGAINST SHOCKS AND HUMIDITY** - Installed vertically inside the nose of the machine, it drives the front wheel via a lubricated gearbox, thus remaining in a protected position.
