ASC EUREKA M5

INDUSTRIAL RIDE-ON SWEEPER

High performance and maneuverability.

With a 1.400 mm cleaning path and a top speed of 9 km/h, the ASC Eureka M5 sweeper is extremely productive, offers high visibility from the driver's seat, and a compact turning radius of just 1.600 mm.

With an hourly performance rate of up to 12.600 m²/h, the ASC Eureka M5 is highly productive in both congested or large areas, or where there are steep gradients.

The machine is available in 2 versions:

- EB version, battery powered, perfect for both exterior and interior spaces, zero emissions.
- HDK version, with Kubota engine. The traction, hopper lifting system, brushes and fan are all hydraulically controlled giving the ASC Eureka M5 unbeatable speed and sweeping quality.

The ASC Eureka M5 is ideal to quickly clean medium to large areas. Its key features are the high dump hopper, ability to work on gradients of 20%, compact design and high visibility from the driver's seat.

DEBRIS CONTAINER

The debris container has a multilevel high dump and is fitted with a hydraulically controlled door. The hopper is fitted in the rear part of the machine and has a 150 L capacity, it can be hydraulically raised to a maximum height of 1350 mm.

CONTROL PANEL

The controls, ergonomic and intuitive, allow the operator to proceed without uncertainty, therefore ensuring full concentration is maintained on the job in hand.

TRACTION

The ASC Eureka M5 has a powerful traction system and a top speed of 9 Km/h, this is controlled by a double pedal (forward and reverse directions).

SAFETY

For maximum safety and comfort of the operator the ASC Eureka M5 is available with a number of accessories: Complete light kit, reverse beeper, overhead guard, windshield in polycarbonate, flashing light (standard in EU), Class M bag filter.

FEATURES

- Rear hopper with hydraulic lift;
- Tool free brush changes;
- Side brush shock absorption system;
- Side panels open completely for easy access;
- Protective steel bumpers;
- Class L, polyester bag filter;
- Electric filter cleaning system;
- Front headlights;
- Vortex prefilter on engine air intake (HDK version);
- Super elastic, non-marking tyres;

BRUSH PRESSURE

The main brush pressure can be adjusted during operation via a control lever, conveniently positioned next to the driver's seat.

EB VERSION

The ASC Eureka M5 is also available in battery version, recommended for sweeping interior surfaces.

SIDE BRUSH

Activated from the main control panel, the side brush enables effective cleaning along edges, under objects and in hard to reach areas. The brush support is shock resistant and therefore stands up to accidental impact.

MULTIBRISTLE® MAIN BRUSH

The MultiBristle® main brush, with rows of diversified bristles, guarantees effective cleaning on any type of floor with any type of dirt. The SharkCap® antijam brush protection system prevents the brush and bearings from being damaged by strands.

MULTIPOCKET FILTER®

With an innovative structure, large filtering area and up to 99.9% filtration efficiency, the Multipocket Filter® delivers clean air back into the environment and guarantees filter performance that lasts over time. The filter is also washable, resistant to water and oil, self-cleaning and easy to maintain.
