ASC MEP

MANUAL SWEEPER

ASC MEP

This is the world's first manual push sweeper invented to have its own dust control. That's right, it doesn't blow or scatter dust and uses no batteries or electric motors to achieve this result.

The ASC MEP is a manual sweeper with a total cleaning path of 730 mm.

It can clean up to 2.190 m²/h and is therefore more than 10 times faster than sweeping with a broom.

The ASC MEP combines PRODUCTIVITY and CONVENIENCE, and it can be used to clean any small or medium sized floor area.

The ASC MEP Eureka has taken some 40 years of research and development to make it a reality. In fact, like a lot of great inventions around the world, it was engineered by accident. Now, some 40,000 units are expected to be sold worldwide every year. Buying an ASC MEP Eureka Sweeper is a small investment for a premium product, especially when compared to most disposable and dust creating push sweepers made in China or India that are alternatives for the Australian and New Zealand markets.

In a nutshell, this is a truly remarkable and practical invention that has long been sought after by commercial industries.

ADJUSTABLE HANDLE

The handle can be regulated according to the height of the operator, guaranteeing comfort and efficiency.

ROBUST FRAME

The Picobello's steel frame is sand blasted and treated with an anti-corrosion coating, guaranteeing strength and resistance.

ROBUST HOPPERS

The robust front and rear hoppers are also high capacity.

ADJUSTABLE MAIN BRUSH

The pressure of the main brush can be regulated to achieve optimal sweeping results on any type of floor.

FEATURES

- Complete Dust Control;
- Simple and versatile;
- Completely silent
- Agile in congested spaces;
- Provides quick, low-cost cleaning;
- Suitable for use on uneven or external surfaces;
- Ideal for cleaning driveways, gardens, apartment buildings, sports facilities.

3 INNOVATION AWARDS

Verona, 2005 "Pulire" winning all categories.

Birmingham, 2013 "Cleaning Show".

Australia, 2013 at the exclusive "INCLEAN".

ECOVAC®

The sweeper is fitted with a polyester cartridge filter, which is easy to remove for maintenance and washable. It filters and traps even the finest dust.

SIDE BRUSH

Adjustable and impact resistant, the side brush is used to clean along edges and in corners.

ROBUST WHEELS

Large rear wheels provide excellent maneuverability and are mounted on self-lubricating bearings.

VERSIONS

- ASC ME
- ASC MEP (with dust control filter)

APPLICATIONS

Industrial sites, construction sites, schools, offices, gyms, religious buildings, hospitals, public buildings, airports, ports, shopping centres, logistics centres and contract cleaners.

SURFACES

Ceramics, marble, cement, concrete, linoleum, non-slip surfaces, tiles, astro turf..
